Erasmus Traineeship Grant 110000

Re:

As Gregor Mendel Institute of Molecular Plant Biology, we are writing this letter to confirm that if he gets the Erasmus traineeship grant from his university, we are committed to accept \_\_\_\_\_, as an intern for a period between 26.06.2017 and 17.09.2017.

You can find a short description of students' tasks and responsibilities below:

He will help with studies concerning the role of autophagy in plant development and stress tolerance. He will try to clone certain candidate genes that we are interested, express them in plant cells, and try to perform protein-protein interaction studies.
